### GUARANTEED CHERRY TREES

As a fruit for the home orchard, cherries are superb. The trees are among the most ornamental for the lawn, and, indeed, may be used to advantage for purely decorative purposes. Their garland of white, coming so early in spring, is a real harbinger of good cheer. COMPASS—Delicious for cooking or eating. Bears young. Well suited to cold dry regions. Very hardy.

DYHOUSE—Similar to Early Richmond, slightly smaller. Ripens 10 days earlier. EARLY RICHMOND—Best sour cherry. Fruit brilliant red. Excellent flavor. LARGE MONTMOLENCY—One of the best sour cherries for general use. ENGLISH MORELLO—Dark, rich red color. Sour. Ripens very late. BLACK TARTARIAN—Most fruitful and vigorous sweet cherry. Medium size. Almost black. Pleasing flavor.

	Each	10	100	1000
3 to 4 feet.....	\$0.75	\$6.00	\$50.00	\$400.00
4 to 5 feet.....	1.00	9.00	75.00	600.00

### GUARANTEED PLUM TREES

#### PLUMS—THE SUPERB JELLY FRUITS

ABUNDANCE—Dark red, flesh yellow, sweet and juicy. Clingstone. Ripens early. BURBANK—Large red, fine flavor. Ripens a few days later than Abundance. GOLD BEAUTY—Large, rich yellow. Flesh firm and sweet. Good quality. DAMSON—Very large, dark purple, fine flavored. Very productive. RED JUNE—Fruit clear garnet color, flesh yellow, firm. Very fine. SHIRO—Clear yellow skinned, large size. Ripens early. WICKSON—Large, dark red, sweet, fine flavor. Clingstone. WILD GOOSE—Brilliant red, excellent flavor and good grower.

### GUARANTEED GARDEN ROOTS

ASPARAGUS—Columbian Mammoth. Every home garden should contain an Asparagus bed. Plant roots and save one or two years' time as compared with planting seed. 12 for 40c, 100 for \$1.50.

RHUBARB—A few clumps of Rhubarb in a corner of the garden will furnish a continual supply of material for pies and sauces during the early summer months. Each, 15c; 12 for \$1.00.

HORSE RADISH—Moneymaker. A new variety that is proving to be a veritable gold mine to market gardeners. It produces large roots very quickly. Because of its quick maturity, growers can get Moneymaker onto the market when the prices are best. 10c each, \$1.00 per dozen.

# Arkansas Seed & Nursery Co.

"The Mail Order House"

Fayetteville, Arkansas

# Guaranteed Seeds, Etc.

We have large stock of field, garden and flower seeds, and exercise the greatest care in growing, selection and testing to keep our seed department up to the highest state of efficiency. Owing to lack of space here we are giving below the names of only a few seeds that should be planted at this season of the year. We especially call your attention to the low prices we are making at this time.

## SPECIAL NOTICE

While we exercise the greatest care to see that all seeds go out as represented, we give no warranty, express or implied as to description, quality of productiveness of any seeds, bulbs, or plants we send out, and will not be in any way responsible for the crop. If goods are not accepted on these terms, they are at once to be returned and your money will be refunded. This is because of many conditions governing the planting and growing of seeds over which we have no control.

Besides the Pleasure of Eating—

Plant Peaches for Profit!

Guaranteed PEACH TREES

"Grown in the Heart of the Ozarks"

I Tell You,

Fall Planting Pays!

—and here are the reasons why:

ALL planting has so many advantages, so many Big Advantages, that no one—either North or South—should forego getting their trees in the Fall and being ready. If there is any one hint that I would give my customers above all others, it would be to buy their trees in the Fall, and have them delivered at once. I speak from long experience. I have been growing and selling trees for a good many years, and I know that the trees that I send out in the Fall give my customers the greatest of satisfaction. Every tree is almost certain to grow. There are few failures.

The reason is just as plain as plain can be. Nature is the teacher. Nature does most of her planting in the Fall. That is the time she gets ready for Spring. Then when Spring comes, there is no getting ready to do. It is done. No other job but to grow—to put all energy into making growth—into making stronger, bigger and better trees than is possible when trees are planted in Spring.

And that is just what you want your trees to do. You want them to grow and come into bearing just as quickly as possible. You want the fruit to eat and sell. You want your trees to work—not loaf. A loafing tree is just as unprofitable as any other loafer.

But Fall planted trees don't loaf. They work. All during the Winter they are making new roots and getting in shape to grow and bloom and bear when Spring comes. They can't help doing so. It's Nature's way and Nature's way is the right way. So "Take Time by the Forelock." Buy your trees now and plant them this Fall. And as a further incentive for doing so, I am offering you in this circular some of the biggest Money Saving Bargains in Fruit Trees that you ever saw. They are the Greatest Values ever offered in fruit trees, and every offer is backed up by my fair and square guarantee of Satisfaction or your money back.

By All Means, Plant This Fall!

You will thank yourself a thousand times for taking advantage of these low prices. Just think of having your own orchard, lots of fruit, apples for storing in the cellar, canned fruits, jellies, and jams of all kinds—a big orchard and berry patch for just a few dollars. Send your order today—don't delay.

Arkansas Seed & Nursery

"The Mail Order House" Company Fayetteville, Arkansas

**MY PERSONAL GUARANTEE**  
I personally guarantee each and every tree and plant listed in this circular—I have pleased million of customers with my fine trees, plants and shrubs, therefore, I can guarantee to you that you will be satisfied with any purchase you make from me or every cent paid me will be refunded to you—My guarantee is not conditional, you must be satisfied in every way.
